Report on Guest Lecture conducted on ICT Skills

The increase in the demand of Information and communication Technology (ICT) has brought a lot of evolutionary shift in learning and teaching. Learning is the ability to use ICT to offer courses in both synchronous and asynchronous environments. Keeping this learning process through ICT in view, the IQAC of MKM has conducted a guest lecture on the topic "Use of ICT in exploring communicating competence to language learners" on 18th April 2019 at 10.00 a.m. in principal's chamber. Dr. Meenakshi Wasnik conducted the session. In her valuable guidance, she explored the information on ICT that implies the technology which consists of electronic devices and associated human interactive materials that enable the user to employ them for a wide range of teaching – learning processes in addition to personal use. Communication is an act of transmitting messages. She explained that communication is a process whereby information is exchanged between individuals using symbols, signs, or verbal interactions. She gave examples of old generation people who communicated through sign or symbols, performing drama and poetry. With the advent of technology, these 'older' forms of communication are less utilized as compared to the use of the Internet, e-mail or video conferencing. Communication is important in order to gain knowledge. The session was very interactive and served fruitful to the students. Dr. Sujata Randhir proposed the vote of thanks.
