The "IMPRINT" Soft Skill Program: A Transformative Journey for Underprivileged Students

Introduction:

In today's rapidly evolving world, the development of soft skills has become increasingly vital for college students. Recognizing this, educational institutions have embraced various best practices to implement comprehensive soft skill development programs. Our institute has developed its own soft skill programme not only for our students but the students of other colleges specially those who are residing in mofussil areas with less access to such courses. The best part is to involve eminent speakers from varied fields and colleges of the parent university, who with their rich experience and elaborative presentations make their points clear in a lucid manner. The course is free for all, and its online nature helps it to be available anytime anywhere for anyone. This report explores the significance of soft skill development, the benefits it offers to students, and the challenges faced in implementing such programs.

Soft skills encompass a range of interpersonal and professional abilities such as communication, teamwork, problem-solving, adaptability, and leadership. In a globally interconnected and competitive environment, possessing strong soft skills enables students to thrive. Employers now emphasize the importance of soft skills as they seek individuals who can effectively collaborate, communicate, and adapt to dynamic work environments.

Report on Guest Lecture conducted on ICT Skills

The increase in the demand of Information and communication Technology (ICT) has brought a lot of evolutionary shift in learning and teaching. Learning is the ability to use ICT to offer courses in both synchronous and asynchronous environments. Keeping this learning process through ICT in view, the IQAC of MKM has conducted a guest lecture on the topic "Use of ICT in exploring communicating competence to language learners" on 18th April 2019 at 10.00 a.m. in principal's chamber. Dr. Meenakshi Wasnik conducted the session. In her valuable guidance, she explored the information on ICT that implies the technology which consists of electronic devices and associated human interactive materials that enable the user to employ them for a wide range of teaching – learning processes in addition to personal use. Communication is an act of transmitting messages. She explained that communication is a process whereby information is exchanged between individuals using symbols, signs, or verbal interactions. She gave examples of old generation people who communicated through sign or symbols, performing drama and poetry. With the advent of technology, these 'older' forms of communication are less utilized as compared to the use of the Internet, e-mail or video conferencing. Communication is important in order to gain knowledge. The session was very interactive and served fruitful to the students. Dr. Sujata Randhir proposed the vote of thanks.

INSPIRE- THE LECTURE SERIES- TO UPLIFT AND EMPOWER

The "Inspire" Lecture Series, hosted by our college, is a visionary initiative aimed at enriching the educational experience of students through an array of diverse and thought-provoking lectures. The chosen theme, "Inspire," was selected to ignite intellectual curiosity, stimulate critical thinking, and foster a well-rounded understanding of various subjects. The decision to adopt this theme was driven by the college's commitment to nurturing holistic growth among its underprivileged students in view with its mission and vision. Recognizing the importance of supplementing academic learning with broader perspectives, the college sought to expose students to a multitude of topics that extend beyond their core curriculum. The "Inspire" Lecture Series was envisioned as a platform to engage, challenge, and inspire students to become well-informed, socially conscious, and intellectually curious individuals.

One of the series' defining features is its wide range of lectures delivered by eminent faculties and guest speakers. These scholars, experts, and practitioners bring a wealth of knowledge and experience to the podium, ensuring that students are exposed to diverse viewpoints and cutting-edge insights. The lectures cover a spectrum of subjects, encompassing everything from the lives of national heroes and societal issues to stress management, gender equality, nutrition, health, voter awareness, and physical fitness.

The "Inspire" Lecture Series has evolved over the years, with topics thoughtfully distributed to offer a balanced and comprehensive learning experience. The yearly distribution of topics ensures a well-rounded exposure, allowing students to explore various domains of knowledge systematically. From delving into the lives and ideologies of transformative figures like Mahatma Gandhi, Jyotiba Phule, and Dr. B. R. Ambedkar to addressing contemporary issues such as stress management and gender equality, the series encompasses a broad spectrum of themes that are relevant to both personal and societal growth.

The significance of the topics covered in "Inspire" cannot be overstated. Each lecture serves as a steppingstone towards holistic development. The exploration of national heroes' lives fosters a sense of patriotism and appreciation for history, while discussions on stress management equip students with practical tools to navigate the challenges of modern life. Gender issues and voter awareness lectures promote social responsibility and informed citizenship, contributing to the development of well-rounded individuals who are conscious of their role in society. Moreover, the emphasis on health, nutrition, and physical fitness underscores the importance of personal well-being and self-care. By spotlighting the philosophies of visionaries like Mahatma Gandhi, Jyotiba Phule, and Dr. B. R. Ambedkar, the lecture series instils values of inclusivity, social justice, and empowerment.

The "Inspire" Lecture Series also aligns seamlessly with the college's commitment to academic excellence. By extending online coverage of the syllabus through these lectures, the series complements traditional classroom learning and ensures a comprehensive understanding of key concepts. This innovative approach not only augments academic performance but also cultivates critical thinking and a deeper appreciation for the subjects. "Inspire" is a commendable initiative that encapsulates the college's dedication to holistic education and societal impact. By delving into a diverse range of topics and providing a platform for esteemed speakers, the series nurtures well-rounded individuals who are equipped with knowledge, empathy, and a commitment to positive change. As the series continues to evolve and inspire, it remains an embodiment of the college's enduring pursuit of excellence and transformational education, especially for the underprivileged section of the society.

The Lecture Series, with its diverse and comprehensive approach, holds significant potential to uplift and empower underprivileged students, equipping them with the knowledge, mindset, and skills needed to transcend their socio-economic barriers and achieve personal and societal growth. Tailoring the series to the unique needs and challenges of underprivileged students can create a transformative impact, bridging the gap between aspiration and achievement. Underprivileged students often face a myriad of obstacles that hinder their educational and personal development. Limited access to resources, inadequate exposure to a variety of subjects, and a lack of role models can perpetuate cycles of poverty and limited opportunities. The "Inspire" Lecture Series, grounded in its theme of holistic growth and diverse topics, can address these challenges, and serve as a catalyst for change.

By incorporating tailored lectures that resonate with the realities of underprivileged students, the "Inspire" series can offer insights and perspectives that directly address their specific needs. Lectures on financial literacy, vocational skills, and entrepreneurship can equip them with practical knowledge to navigate economic challenges and envision a path to self-sufficiency. Exposure to success stories from similar backgrounds can inspire hope and determination, showcasing that overcoming adversity is possible with dedication and the right tools. The series can also play a pivotal role in nurturing personal development and building self-esteem. Lectures on resilience, self-confidence, and positive mindset can empower underprivileged students to overcome self-doubt and embrace their potential. By exploring topics like effective communication and interpersonal skills, the series can enhance their ability to interact confidently in diverse settings, opening doors to better opportunities.

Furthermore, addressing societal issues such as gender equality and social justice within the "Inspire" Lecture Series can instil a sense of agency and advocacy among underprivileged students. By shedding light on these topics, the series can inspire them to become change agents within their communities, advocating for equity and social upliftment. It can also create a supportive network for underprivileged students, fostering a sense of belonging and community. Engaging with eminent faculties, guest speakers, and peers from different backgrounds can expand their horizons, encouraging them to envision a world beyond their immediate circumstances. Networking opportunities and mentorship programs facilitated through the series can connect them with professionals who can guide and mentor them, providing invaluable insights into various career paths.

To ensure the "Inspire" Lecture Series maximizes its impact on underprivileged students, the institute makes the program accessible and inclusive. Utilizing technology for virtual sessions of lectures accommodate those who face logistical challenges. Collaborations with other colleges, community organizations, help identify specific topics and speakers that resonate with the needs of underprivileged students. "Inspire" Lecture Series has the potential to be a transformative force for underprivileged students, offering a pathway to empowerment, growth, and societal upliftment. By addressing their unique challenges and aspirations through tailored lectures, the series ignites a spark of inspiration, equip them with practical skills, and foster a sense of agency that empowers them to transcend their circumstances. Through collaboration, inclusivity, and a commitment to making a difference, the "Inspire" Lecture Series is truly a beacon of hope and opportunity for underprivileged students, helping them realize their full potential and contribute positively to society.

Miss Brill Fantasizes a play

- Two young girls in red meeting two soldiers and leaving arm-in-arm.
- Two peasant women wearing funny straw hats, a beautiful woman dropping bunch of violets, a woman in ermine toque talking to a tall gentleman in gray who left her while she was still talking and the band playing the tune "The Brute! The Brute!"
- While Miss Brill watches it all she starts fantasizing that everything happening before her is part of a play and she herself is an actress playing an important part.
- Miss Brill's fantasy stems from her search for belonging.
- An alienated, lonely English teacher of little children and reader of newspaper for an on man in vegetable state searches for her identity.

Text

He sat at a banquet in London in honour of one of the two or three conspicuously illustrious English military names of this generation. For reasons which will presently appear, I will withhold his real name and titles, and call him Lieutenant General Lord Arthur Scoresby, V.C., K.C.B., etc., etc., etc. What a fascination there is in a renowned name! There sat the man, in actual flesh, whom I had heard of so many thousands of times since that day, thirty years before, when his name shot suddenly to the zenith from a Crimean battlefield, to remain forever celebrated.

Difficult Words:

- Conspicuously- clearly
- Demigod- a minor deity
- Illustrious- respected
- Fascination- attraction, सम्मोहन
- Zenith- the top
- Crimean- referring to Crimea, a peninsula of Ukraine where the majority of the population is Russian

In recent years unemployment has become a global issue facing young people. Although many young people earn a college education, but they struggle to find jobs in their chosen field. For young people today, it is more significant than ever that they are well equipped to enter the workforce. If our youth are not sensitized as regards to road safety, the number of road fatalities would increase, with youth bearing the brunt of it. Hence, Manoharrao Kamdi Mahavidyalaya, Nagpur under NSS Cell organised a Guest Lecture on the topic "Traffic Awareness on Road Safety" on 16th December with Mr. Rajendra Dethle, Incharge, RSP Department, Nagpur City Police, as the Resource person who hailed the students to follow the traffic rules strictly, in his remarkable presentation through various videos and real incident anecdotes which was an eye opener for the students.
