Concept Note

Indian English novelists were influenced by Gandhism in the shaping of their visions. Pre-independent writers had a good fortune of seeing Gandhism in action and their approach to it was naturally of a participant observer and positive. Gandhism with all its multivalent meanings and philosophical basis, and freedom movement of India is present as an integrated phenomenon in the writings of these writers. The generation immediately after post independent era, was also seriously engaged with Gandhism, but the perspective had changed and these writers, of alternative ideologies. The perspective changed once again with post-modernist writers who made their mark in the Eighties and Nineties of the last century. Along with the other themes, we find drastic change in the characterization of women in pre and post-independence novels. In recent Indo-English fiction, the criticality of interest has shifted to the more rarified areas such as; the deployment of the multiculturalism. The acceptance of diverse religions, languages and accommodation of multiple ethnic groups into the social fabric, and tolerance of diverse cultural traits is found in recent Indian English fiction that carries the themes of modern times.
